HAND HELD AIR BLOWER MODEL NO. K100

HAND BLOWER MODEL NO. K100

The light-weight, sturdy and versatile industrial tool
designed for heavy duty operation in plants and
factories.

This blower directs a powerful stream of air into
those hard-to-reach places, speeding cleaning
and reducing maintenance time (and cost). The
rubber directional nozzle will not damage delicate
machine parts. The handy thumb switch and the long
durable cord permit one hand operation over a wide
area.

Among the many uses for the Hand
Blower will be the removal of lint and threads
from textile machinery and sewing machines,
dust and chip cleaning in woodworking and
machines shops, air filter renewal, spot drying,
and fast, efficient floor sweeping.
